

## WNTC to Interview King Queen of Ice Carnival

Although Carnival Weekend has passed, WNTC has been continuing the spirit of the festival by interviewing many of the important personalities who contributed their efforts to the affair. Notable among those interviewed was Miss Dottie Grover. Also interviewed were the executive co-chairmen of this year's Ice Carnival Committee, Dick McGee, and Vito Wheeler.

Soon to be on the agenda will be the Queen and King who presided during the activities.

Inventory was taken recently of the station's music collection and it was discovered that more than twelve hundred selections are now available, with many new releases to these, a variety of musical and dramatic programs are continually being added.

It was announced that positions are still open for prospective members who wish to participate in the station's activities.

The weekly schedule of programs follows:
